

Become a HAM radio operator

Saturdays 11:00am - 1:00pm

Darby Library meeting room

October 4th - November 29th

Handy in many situations, radio communications can be life saving when phones and Internet are down or out of reach.

Ham radios start where walkie-talkies leave off, with licensed radio operators communicating around the corner and around the world.

ARRL License Manual costs \$29.95 includes chapters on every aspect of the licensing exam and numerous practice tests.

Darby Saturday study sessions are FREE. YOU can be an amateur radio operator. No electronics background required.
